

RECEIVED FEB 23 2005

Dear NOSB Livestock Committee

I feel Livestock should have access to outdoors, whether permitting, In Order to call them + there Milk Organic. There is nothing better for them to go outside + get plenty of exercise; and lots of fresh green Grass. I Feel that it is the only way Livestock can be called Natural Or Organic if they have access to Outdoors in the Sun for exercise + fresh Green Grass Plus No Drugs, Pesticides, Hormones etc. + Fed Total Organic Feed + Hay.
